## THE BOOK

we like to present the world of „hiphop-posing“, the fashion and attitude of the golden aera.  
This book will be a collection of european hiphop pioneers, showing their best posing-pictures  
from the 80's and early 90's, when hiphop was fresh and posing was dope!  
The focus is not on photography and the photographer, but on the posers and their lifestyle.  
We don't need „good“ photos, but fresh poses and fresh people!
